

Dear Stakeholders,

**Line closure - Guildford to Petersfield, Saturday 11 to Sunday 19 February**

We are writing to let you know that 9-days of consecutive work will begin between Guildford and Petersfield in February. We'll be renewing switches and crossings by Haslemere station, preparing the railway for new signals from Farncombe to Petersfield, replacing a footbridge at Silo Road and refurbishing level crossings.

**What do you need to know?**

The line will be closed between **Guildford to Petersfield from Saturday 11 to Sunday 19 February**

During these dates, passengers should check before they travel as there will be changes to services, with buses replacing trains on the route.

This work is part of a wider project to improve journeys into Waterloo from the Portsmouth area. Work started in 2022 and will see new signals installed, as well as renewing track and level crossings along the route. Set to finish in late 2024, the programme will improve reliability and journey times for passengers.

Over the past month a marketing campaign has been underway, with posters in stations, digital display information and updates on social media. It would be greatly appreciated if you were to share this information to make the public more aware.

If you have any questions about this scheme or require assistance in the future, please do not hesitate to get in contact.

Kind regards,

Network Rail Southern Stakeholder Team
